# Study in India & New Zealand

## SURE PATH 661 OPTION

- Study your first 3 papers in India and either complete your qualification there or in New Zealand
- Study online at home or at one of our authorised study centres in India
- Come to NZ to complete your qualification - Studying at one of NZSBG's NZ campuses
- Apply for your Graduate Job Search Work Visa to stay and work in NZ

### ❖ IELTS Entry Level

Students don't require an IELTS score to start study in India but require IELTS 5.5 to continue their study in New Zealand

### ❖ Key features of the Sure Path 661 option:

- NZ Tutor-led instruction - for the full 12 months of study, (blended, face-to face and online)
- Students in India follow the same programme as students in NZ
- Less funds to show required for Student Visa (6 months vs 1 year)
- Faster process - students complete half of requirements for qualification while waiting for Student Visa application to be approved
- Higher likelihood of Student Visa application success
- Students can work 20 hours part time in NZ
- Graduates still qualify for 1 year Graduate Job Search Work visa, and 50 points for PR
- Enrol on a Provisional Enrolment while waiting for your Year 12 results

### ❖ Courses

- 1) 661 NZIM Certificate in Management
- 2) 661 NZIM Diploma in Management
- 3) 661 NZIM Diploma in Management Advanced
- 4) 661 NZ Diploma in Business (year-1)

### ❖ Campuses:

- **Wellington**  
Level 6, Change House, 150 Featherston Street, Downtown, Wellington
- **Auckland**  
Level 8, 115 Queen Street , (entrance off Swanson Street) Auckland
- **Christchurch**

### ❖ **Why study the NZIM Dip Mgt and/or NZDipBus?**

Both qualifications are widely recognised by employer and professional groups. They are approved by the New Zealand Qualifications Authority and the NZ Tertiary Education Commission. The diplomas are ideal for career-minded people seeking practical, flexible, high-quality business qualifications.

### ❖ **NZIM Dip Mgt and NZDipBus opens doors worldwide**

The NZIM Dip Mgt provides a thorough grounding in business and management practice appropriate for people wishing to enter management roles in business. The qualification is designed as an exit point from the NZ Diploma in Business for those students who wish to have a basic understanding of management practice but do not wish to specialize in business studies.

With either diploma you can now work or study almost anywhere because New Zealand is a signatory to the Lisbon Convention and your New Zealand qualifications has equivalent status in each of the 50 Lisbon convention countries.

(The Lisbon Convention is recognized as setting international best practice for assessing and comparing qualifications from around the world. Signatories to the Lisbon Convention include the United Kingdom, France, Germany, Italy, the United States, Canada and Australia.)

### ❖ **The competitive edge**

In today's fast moving global economy, employers expect new graduates to be fluent in any culture and have developed the ability to interact, adapt and integrate within any working environment.

We arm you with these attributes, enabling you to gain a competitive edge when you enter your chosen profession.

All our diploma papers encourage you to put into practice the theories you're learning about. This 'know how' rather than just 'know what' gives you a true competitive edge in the job market.

### ❖ **Your options once you have completed the NZIM Dip Mgt and/or NZDipBus**

- Further study - most New Zealand institutes of technology and many universities will credit your diploma papers towards a Bachelor of business or similar degree. Both qualifications also let you travel and study internationally.
- Return to your home country - with valuable international education and job experience so you'll have the confidence to succeed in a highly competitive global market.
- Apply for NZ Permanent Residency - international students with recognised New Zealand qualifications such as the NZIM Dip Mgt and/or NZDipBus can gain bonus points when applying for residency through the Skilled Migrant Category.

# New Zealand –Destination to Study... Work... Migrate !!

New Zealand, a beautiful and unique country in the South Pacific, where exciting things are happening in Education. New Zealand is becoming the first choice for an increasing number of international students seeking quality education & to explore new ideas in pioneering programmes that will put them at the front in the world job markets of the future.

New Zealand universities, colleges and other New Zealand education institutions offer students a unique learning environment. This is supported by an integrated education system in which students attending New Zealand schools find it easy to make the transition to the next level of education

## Why Study In New Zealand ?

### ❖ Quality Assurance

To ensure that both the Government and individuals are investing in quality education, training and assessment, the Government has set up nationally recognized processes of quality assurance. There are a number of government appointed bodies responsible for approving qualifications in New Zealand and for the quality that determines the delivery of qualifications. These bodies are:

New Zealand Qualifications Authority (NZQA)

responsible for approving and national qualifications offered at polytechnics and private training establishments.

New Zealand Vice-Chancellor's Committee (NZVCC)

responsible for approving all diplomas, undergraduate and graduate programmes offered by New Zealand universities.

### ❖ Universities in New Zealand

University education was established in New Zealand in 1870 and has a similar tradition to the British university system. There are eight state-funded universities in New Zealand, all of them internationally respected for their academic and research performance. In addition to a centrally co-ordinated system of quality assurance audits at both institution and programme level, each university undertakes internal quality checks. All New Zealand universities offer a broad range of subjects in Arts, Commerce and Science. Each has developed its own specialist subjects such as Medicine, Engineering, Veterinary Science, Computer Studies, Agriculture and Environmental Studies, Sports-Science, Biotechnology, Architecture etc. Bachelor's, Masters and Doctoral degrees are offered by all New Zealand universities. A range of under graduate and postgraduate diplomas is also available, along with honours programmes (usually requiring an additional year of study)

### ❖ Polytechnics in New Zealand

New Zealand Polytechnics, and Institutes of Technology, are state funded and provide education and training at all levels ranging from introductory studies through to full degree programmes. A few of them offer PG programmes as well. Polytechnics and Institutes of Technology are efficient tertiary providers offering programmes which can be both academically and vocationally focused. Due to their active engagement with industry, employers and government agencies they provide programmes which are of a high academic standard and are relevant to the rapidly changing workforce on a global basis. Polytechnics offer diverse courses like-Arts and Design, Travel & Tourism, Hospitality etc.

### ❖ Private Degree Providers

In 1989, amendments to the Education Act in New Zealand enabled the private tertiary sector to award degrees through the New Zealand Qualifications Authority (NZQA). The key to the legitimacy of the private degree providers is their relationship with the NZQA which has responsibility for course accreditation. The mission of the private degree providers is to provide a quality service to their students and a range of skills of value in the work environment.

### ❖ Private Training Providers (PTEs)

Private training establishments are registered and their courses approved by NZQA. Institutions and schools in this sector provide a range of courses including English language, aviation flight training, air traffic control, English, business computing, dance, design and arts, religious studies, travel and tourism and training for the hospitality industry.

### ❖ **Undergraduate Study in New Zealand**

At most New Zealand universities the course of study for a Bachelor's degree consists of a prescribed number of units, papers or courses. In each subject there are usually first-year (stage I or 100-level), second-year (stage 2 or 200 level) and third-year (stage 3 or 300 level) courses. A second year course may be commenced only after prescribed passes in the subject at stage I and a third-year course only after required passes in the subject at stage 2. In each subject the student is required to attend a given number of lectures, tutorials and/or laboratory periods per week. In some courses field trips provide opportunities for on-site study of natural phenomena or social processes. These learning contacts are supplemented by personal reading and research. Students are expected to develop independent study skills with a minimum of professional supervision. Grades given in tests, assignments and practical work count towards the final grade for a course. Most courses have a final written examination held either at mid-year (June) or the end of the academic year (October/November).

### ❖ **Post Graduate Study in New Zealand**

The first degree a student is able to gain in New Zealand is as elsewhere, a Bachelors degree. With a completed Bachelor's degree, a graduate may be able to go on to a Masters degree. These degrees may be awarded with Honours, an indication both of the challenge the course presents and of the student's achievement in it.

#### **Postgraduate Diploma**

A one-year, full-time course of study for graduates. It does not always require its students to have prior learning or experience in the subject matter of the diploma.

#### **Master's Degree**

The Master's degree is open to those who have completed a Bachelors degree. The course of study is usually of one or two year's full-time study or its equivalent in part-time study. The work required normally builds upon the prior knowledge gained in the major part of the Bachelor's degree, and most or all of it is in that discipline. It is at a more advanced level. That is normally reflected in the content of the work; in the mode of teaching which is likely to emphasise seminar presentation; and in provision of research experience for the candidate. A thesis is an account of a substantial piece of research. Many master's degrees include a thesis component, and in some cases, particularly those which are taken after a four-year Bachelors (Honours) course, the degrees may be thesis-only. However increasingly Masters' degrees by papers, or papers plus research, are becoming available. The successful student is expected to show, as the title implies, a real grasp of the subject, demonstrated by an understanding of the discipline, a capacity to reflect upon it, and an ability to undertake research into it.

### ❖ **Doctorate**

New Zealand Doctoral Research scholarships are a significant educational opportunity. Doctorate programmes generally take atleast 3 years of full time study to complete. It is a fully research based degree. PHD students pay domestic tuition fee which is a 'benefit' of fee difference from international fees to domestic fees'. Scholarships are also awarded to the students on the basis of academic merit and research ability by the university. The scholarships doctoral degree by research in New Zealand universities. The scholarship funding covers international tuition fee, a monthly living allowance, travel, health, insurance, books and thesis allowance.

### ❖ **Qualifications Globally Recognised.**

Students who have studied are earning a reputation of being called innovative thinkers and are being addressed as "The New World Class". It has a progressive education system with state of art facilities. Qualifications are internationally recognized. There are wide range of study opportunities, including state administered primary, secondary schools, universities, polytechnics, colleges of education and private training establishments. The NZQA assures the quality of programme offered by state institutions and a private establishment, which in turn ensures that programmes offered in New Zealand, maintain international recognition.

### ❖ **Equally Strong Focus On Academics And Welfare**

Most of the universities have been taking International students for the last 50- 60 years and hence have gained a multicultural/national perspective offering a balanced curriculum which finds relevance in work places around the world. The same perspective enables it to offer excellent welfare services to students from around the world. The polytechnics in NZ are known for the programs which are "Read to Enter the Job Markets".

❖ **“Best Of Both World” Qualifications.**

The best thing about studying in NZ is that the expenses involved are comparatively less than the other major destinations viz. USA, UK, Canada or Australia. In fact it is almost 50% less than that of USA and UK. Coupled with the lesser costs and International recognition of its qualification, NZ essentially offers “Best of Both Worlds” qualifications. Kiwi Life: Even though the country might be small the people think big. The people popularly known as Kiwi’s are renowned for their hospitality and their love for sports and the outdoors.

❖ **Migration and Job search Opportunity.**

Students are given a visa to search for a job after completion of their course and also have a good opportunity to migrate.

❖ **English Widely Spoken.**

As English is the day-to-day language in NZ, Indian students find it very easy to study, live and interact in NZ. Moreover the NZ accent is easy to understand.

❖ **Excellent Climatic Conditions.**

New Zealand enjoys temperate climate which is moderated by the sea’s surrounding it. This-results in mild summers and cool winters. This excellent climate encourages all sorts of outdoor sports and activities. One can indulge in sports as varied from Football, cricket to White water rafting and Bungee jumping. In fact it is widely accepted fact that NZ enjoys one of the most favorable climates in the world. It enjoys the four distinct seasons, viz, Summer (Nov. to March), Autumn (March to June), Winter (June to Sept.) & Spring (Sept. to Nov.) & hence people enjoy high quality living conditions.

❖ **Glean, Green And Safe Country.**

New Zealand offers a safe learning environment. It is the first country in the world to declare itself as a nuclear free zone. The environment is green, clean and uncrowded with a small populations and wide open spaces.

❖ **Code of Practice.**

A code of practice that ensures protection of international student’s welfare by all education providers came into force in 2002. Only signatories to the code will be allowed to enroll international students. Ensuring that New Zealand education providers act fairly and reasonably when recruiting students, the Code gives prospective students that they can trust the institution in which they choose to enroll.

❖ **Academic Year**

The academic year is from mid/late February to early November and most Universities have 2 semesters with a holiday of 4 weeks in June. Each University operates slightly different dates and some also offer summer school in the main holiday period in November to February. Intakes are in February, July and sometimes in September.

❖ **Application Procedure**

New Zealand generally has 2 intakes i.e. Feb. & July. It is suggested that you should start making applications in the month of August for the Feb. intake. Universities generally take around 6 weeks to process an application and immigration services again take around 6 weeks for the Visas. Documents needed for making an application are resume, statement of purpose, marksheets & certificates of X, XII, till Graduation or relevant degree transcripts in specific cases, Certificates of extra curricular activities and passport copy, birth certificate & 2 reference letters from colleges & employers.

❖ **English Language Requirements**

All students must be fluent in English language if they are to succeed at university in New Zealand. There are many courses available at public and private institutions in New Zealand and elsewhere to assist international students reach the required level of English language competence. We can recommended waiver of IELTS/TOEFL wherever possible. A band of 6.0/6.5 for undergraduate & 6.5/7.5 for postgraduate courses is desirable.

❖ **Accommodation**

Most educational institutions in New Zealand will assist you in finding accommodation while studying in New Zealand. There are various types of accommodation which are available to international students. These are like Halls of residence/Students Hostel, Homestay,

Apartments/Flats. All students on finalizing institution, should refer to its website for accommodation arrangements.

#### ❖ Health Insurance

It is strongly recommended that all international students obtain medical insurance cover because most temporary students are not entitled to publicly funded health services while in New Zealand. A condition of your student visa is that you must have an adequate allowance and this should include coverage of medical costs. It is costing generally between NZ\$ 450-NZ\$ 492.

#### ❖ Student Visa

**Student Visa:** NZIS is the sole agency of the NZ Government responsible for migration & entry to NZ. Student visa is required to enter the country to study a course more than 3 months duration, also the course opted should be offered by education institutions approved & registered with NZQA. Student is issued a visa for One year duration could be & easily extended being in New Zealand as per the further duration of course. Visit our Visa counselor for personal guidance & documentation requirement for student visa. You can only get a student visa to study in a course at an education institution, which is registered and approved by the NZQA. Your student visa will be issued for the length of time your course tuition fees have been paid. You must pay your tuition fees in advance for the University to send you an official receipt and the Offer of Place Certificate, which also guarantees that accommodation will be available, which are required with your visa application. Acceptance by the University does not Guarantee that a student will be issued a student visa by the immigration authorities application. Acceptance by the University does not Guarantee that a student will be issued a student visa by the immigration authorities. Student visa and permit information and application forms can be obtained from any New Zealand Immigration Service branch office within New Zealand or overseas (contact the nearest New Zealand High Commission or Embassy in Delhi). You can also obtain all relevant information and forms from the New Zealand Immigration Service website, [www.immigration.govt.nz](http://www.immigration.govt.nz) However visit your Edwise counselor for personal guidance and the latest checklist.

#### ❖ Tuition Fees

New Zealand provides high quality courses with high standard of living at lower cost than Australia, UK, and USA. The costs below will give you an idea of how much spending money you will need in New Zealand as it can vary from city to city. Tuition fees vary from programme to programme.

Under Graduate Programmes	Tuition fees (per year)

#### ❖ Living Expenses

Students can choose from Halls of Residence, Students Hostels, Dormitories, Homestay private apartments and flats. NZ\$ 10,000-12,000 Per annum. This includes food, clothing, transport, entertainment and accommodation.

#### ❖ Employment

International students enrolled in a tertiary programme of study are eligible to work upto 20 hours per week during the academic year. Students can work full time (40 hrs) in New Zealand only during the summer holidays. The average wage for part time jobs is between NZ\$10-NZ\$12 per hour. International students who have graduated from a course in New Zealand that would gain points under the Skilled Migrant Category may apply for a six month open work permit. Eligible student's partner may apply for a work permit, valid for the duration of the study course.

#### ❖ Industry

NZ industries work side by side to encourage and sustain the economic activity and the benefits it brings to the people of NZ. Over 60% of NZ GDP is generated by services. This includes: The computer software development industry, film, television and commercial production industry, services like banking, finance, advertising, property, tourism & hospitality, and food processing. The manufacturing sector has shown strong export performance growth, which has encouraged investment and employment growth.
